

Copenhagen 31 March, 2014

Dear Enlarged Board members,
Dear Governors,
Dear Presidents,

It is with great pleasure that I can announce that Governor Hanne von Schaumann-Werder from the German Union has accepted to be SIE's new representative in WfWP (Women for Water Partnership) after SIE Liaison Mariet Verhoef- Cohen.

I will take the opportunity to congratulate Mariet with her new task within WfWP as the new President from the 22 March, 2014. At the same time I would like to thank her for the outstanding work she has been doing for SIE's membership of WfWP. We can be proud that one of "our own" has reached such a high position in an important and reputable organization. Well done Mariet!

For your information Mariet will continue her work as SIE Liaison for Africa which both the SIE Board and Mariet think is compatible.

I wish both Hanne and Mariet the best of luck with their new tasks and I am looking forward to the continuation of the good cooperation we always have had with WfWP.

With my best wishes,

Ulla
